10 brands catering to summer holidays

By Sarah Bristow | November 21, 2016 - 2:13pm | BEAUTY

The summer holidays are often a time for adventure. Whether your next break is near or far, the following bite-sized and multipurpose beauty products are making travelling as easy as can be.

Dettol Instant Hand Sanitizer Chamomile

A festival and travelling mainstay is the hand sanitiser. Dettol is perhaps one of the world's most famed antiseptic brands – its dermatologically tested sanitiser kills 99.9 per cent of germs instantly without the need for soap or water.

Travalo

Fragrance on the go is available with Travalo. The refillable atomiser bottle is a pocket-sized fragrance spray that can be filled with any perfume (as long as it has a removable spray head). The nifty tool offers up to 65 sprays.

Pantene Pro-V 3 Minute Miracle Daily Moisture Renewal Conditioner

Pantene's latest addition is a hair care hero – the three-minute hair mask promises to undo three months worth of damage. The lightweight formula of histidine helps to boost each strand of hair for softer, shinier locks.

Avène AVÈNE THERMAL SPRING WATER

Dehydration is a key concern for the beauty-minded traveller. Helping to refresh complexions is the Avène Thermal Spring Water. Extracted directly at the source and packaged in a sterile environment, the water's low mineral content helps to comfort a range of different skin irritations.

Revo Revo Lip Balm Twist - Watermelon

Keeping lips soft and supple no matter the weather (or air conditioning) is Revo. The brand's conditioning formula of natural oils, moisturising aloe and antioxidant vitamin E is housed in an innovative (spill-free) orb.

Lady Jayne Brush - Folding Travel

Space is never in surplus when travelling, meaning beauty essentials should be as compact as possible. Lady Jayne's special travel offering for hair is a compact, fold-up design with in-built firm, ball-tipped nylon bristles and an attached mirror.

NIVEA Gentle Caring Micellar Water - Sensitive Skin

Micellar water replaces any need to take a three-part cleansing system away on holidays. This sensitive skin version is a multipurpose three-in-one product that cleanses, moisturises and removes eye makeup residue. The micellar water boosts hydration to the skin, as well as replaces any need to tone.

e.l.f. Australia Essential Travel Mirror

For check-ups in transit a pocket mirror comes in handy. e.l.f cosmetics has a two-in-one version that hosts a mirror on one side and a magnifying version on the other for extreme close-ups.

Manicare Travel Bottles

Helping to save space while packing is the travel bottle option. Manicare's petite purse-sized containers can save anything from creams and lotions to cosmetics. ID labels are also included.

Keratin Complex Keratin Complex Travel Valet Care Travel Pack

Full-sized shampoo and conditioners are not ideal for travel – for both the size as well as the risk of spillage. This pint-sized duo contains a Care Conditioner and a Care Shampoo for keeping locks nourished without having to sacrifice luggage space.
